System Administrator

WORK EXPERIENCE

System Administrator / Network Engineer

ARAX — Chisinau, Moldova 2023 — Present

- **ISP Infrastructure:** Maintained, upgraded, and monitored on-premise bare-metal server hardware, carrier-grade network equipment (Cisco, Juniper, MikroTik), and Linux server fleet.
- **Monitoring & Observability Stack:** Deployed and migrated to a new Zabbix/Grafana monitoring platform; integrated InfluxDB for custom metrics and high-precision time-series data visualization.
- **Centralized Logging & SIEM Alerting:** Implemented Graylog as a centralized log management system with automated SIEM alerting for NOC engineers and system administrators.
- **Backup & Disaster Recovery:** Engineered resilient backup and recovery solutions utilizing TrueNAS and rsync for mission-critical infrastructure.
- **FTTB/GPON Equipment Testing:** Performed functional, regression, and load testing on subscriber and core FTTB/GPON networking devices.
- **Automation & Scripting:** Authored custom Bash and Python scripts to automate equipment configuration, bulk updates, and monitoring workflows.

System Administrator

Continent — Chisinau, Moldova 2022 — 2023

- **Endpoint & Systems Management:** Administered Microsoft Windows Workstations and Servers; deployed and maintained MS Group Policy Objects (GPO); automated software deployment using PDQ Inventory and PDQ Deploy.
- **Infrastructure & Network Operations:** Managed LAN infrastructure, wireless networks using Ubiquiti UniFi, and IP telephony via FreePBX.
- **Physical Security & Support:** Maintained Hikvision CCTV systems and organized Helpdesk operations to minimize workstation downtime.

System Administrator

Elince — Chisinau, Moldova 2020 — 2023

- **Branch Infrastructure & Networking:** Serviced retail branch offices, established secure VPN tunnels, configured network switches, and integrated peripheral devices.
- **Systems & Retail Operations:** Administered MS Active Directory fleet with a terminal server farm,Managed Windows Workstations, thin clients, CCTV, Access Control Systems (ACS), and FreePBX IP telephony.

EDUCATION AND TRAINING

Bachelor's Degree in Microelectronics and Nanotechnologies

Universitatea Tehnică a Moldovei (UTM) 2018 — 2022

Vocational Education in Computer Engineering (Calculatoare)

COLEGIUL DE MICROELECTRONICA SI TEHNICA DE CALCUL (CEEE) 2014 — 2018
